

## Heads on Bodies

**'WOW! That's amazing!'**

Bring the stars to your event. Bump and grind with Beyonce, boogie with Bond or just have a quiet drink with the Mona Lisa!

This hi-tech version of the seaside cut-out uses the latest computer technology to transform your guests into their favourite characters from TV, film, music and sport.

We superimpose your guests face into one of over 300 exciting full colour images. Our professional and friendly operators interact with guests to achieve the proper pose and expression to fit their chosen scene. One minute later the guest will be presented with an 8"x10" personalised framed colour print.

(In addition to 8"x10" prints, we can also produce personalised Mouse mats, T-shirts and Beach bags)

The whole process is streamed live to overhead monitors, making this product highly entertaining, as guests and onlookers join in the fun.

### Specification

#### **Prints per hour**

We can print up to 40 prints per hour.

#### Site Requirements

At least 2 x 3 square meters of space. A 13amp socket.
